

SkillHeritage: A Documentation App for Better Video Instructions

HTW SAAR
Girndt, Germain - 3872203
Komorowska, Małgorzata - 5024340
Krier, Katharina - 3871584

Mehmet – KFZ-Mechaniker

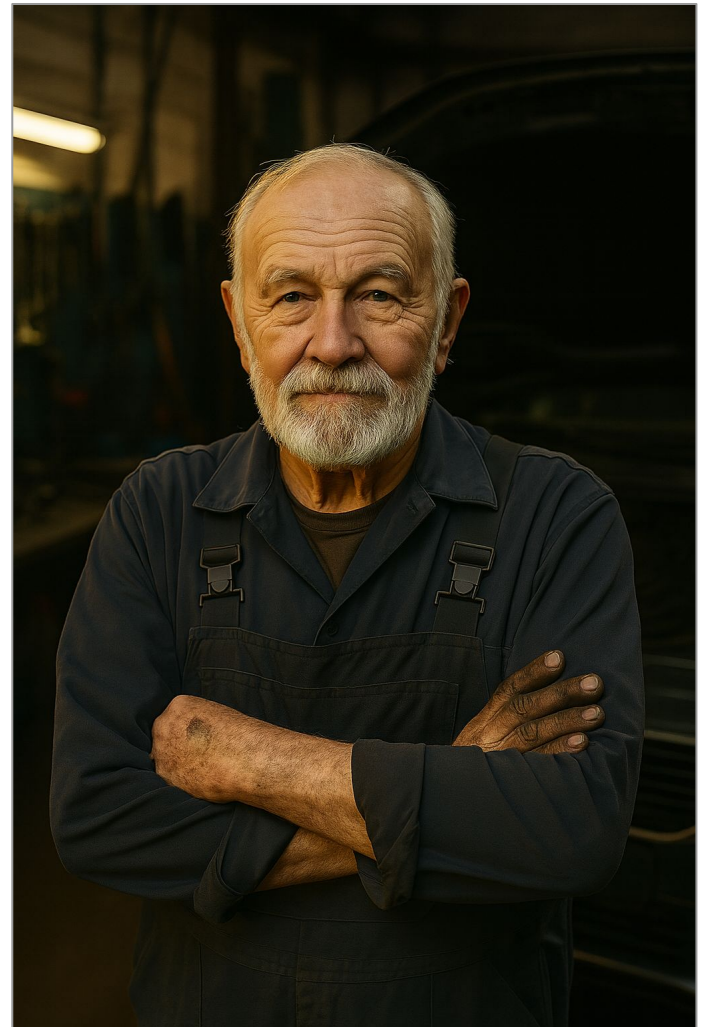

35 Jahre Berufserfahrung

Motivationen

- Handwerklich saubere und sichere Arbeit abliefern
- Routineabläufe ohne unnötige Unterbrechungen
- Eigenes Erfahrungswissen weitergeben

Frustrationen

- Lange digitale Anleitungen mit zu viel Text
- Systeme, die lange Ladezeiten oder komplizierte Anmeldungen haben

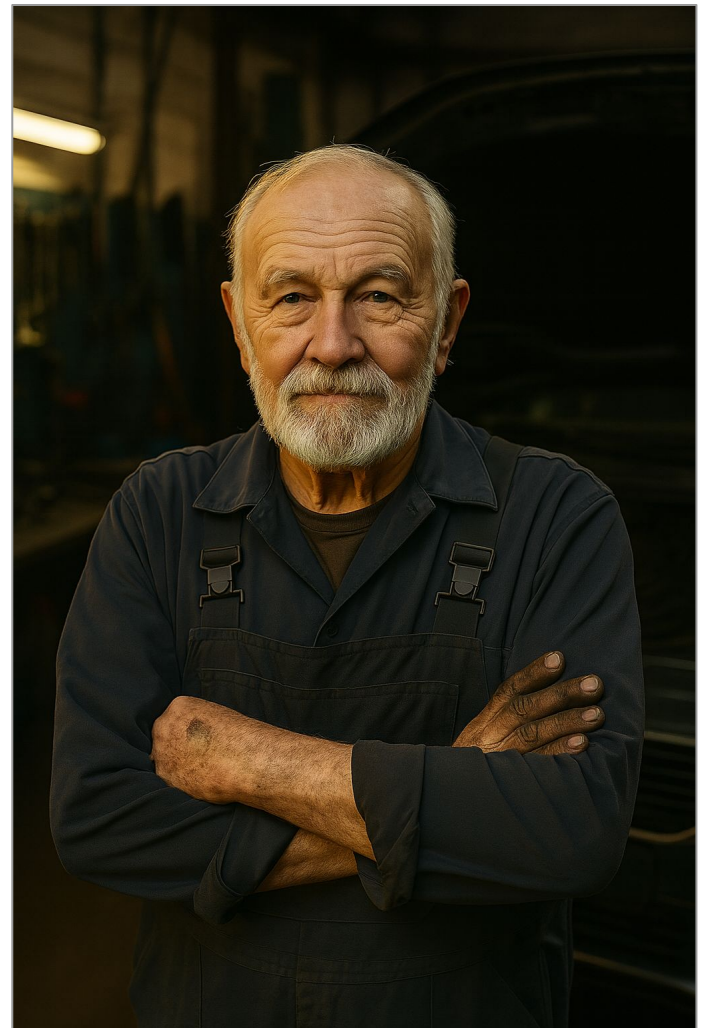

Mehmet – KFZ-Mechaniker

35 Jahre Berufserfahrung

User Needs

- Mehmet needs a **straightforward way of passing down his knowledge to the less experienced colleagues**, because he is motivated by transmitting his skills and experience and doesn't want the company to have problems when he retires.
- Mehmet needs a **simple solution**, because (1) complicated explanations/processes are too frustrating for him, (2) he is motivated by usual processes without interruption slowing him down, and (3) he is frustrated by long waiting times.

SkillHeritage App

Automated Generation of a Step-by-Step
Manual containing Structured Data

Semantic Search

Play/Record video

Speech2Text Transcript

Timestamps Transcript

00:00:00	Introduction to the Course
00:00:02	Overview of Website Development and Agency Management
00:00:07	Choosing the Right Platform (WordPress, Shopify, etc.)
00:00:40	Setting Up Domain and Hosting
00:00:48	Designing Your Website (UI/UX Basics)
00:00:49	Developing the Website (HTML, CSS, JavaScript Basics)
00:00:50	Basic SEO Strategies
00:00:42	Final Tips and Best Practices

GOTO Video Timestamp

Devices and Technologies

- **Modern Android Smartphone**
 - Frontend – Native App on PlayStore
 - Video + Audio Recording
 - Video Reproduction
 - Transcript, Timestamps, Manual Visualization
 - Wireless Support
- **Private Virtual Server (VPS) with Storage**
 - "Heavy Lifting" Processing (AWS EC2)
 - Transcript generation
 - Timestamps generation
 - Structured Step-by-Step Manual Generation
 - Semantic Search for Queries
 - Storage (AWS EBS / AWS S3)
 - Videos, Video-Streaming
 - Transcript, Timestamp, Step-By-Step Manual
 - Communication with external APIs
 - e.g. Open AI APIs

Credits for Open AI's API

- **OpenAI Whisper API**
 - Audio Automatic Speech Recognition (ASR)
 - Speech2Text Transcript
 - GOTO Video Timestamp
- **OpenAI Completions API**
 - Text2Text LLM
 - Automated Generation of a Step-By-Step Manual with Structured Data
- **OpenAI Vector Stores API**
 - Vector Embeddings
 - Semantic Search

Project UX Focus:
Learnability – Easy to Understand, Easy to Use
